## Work history

---

### Tiims Revolution

Heredia, Costa Rica

Fullstack Developer

06/2022 - Present

- Participated in large teams of developers utilizing GitHub for version control, GitHub Actions for CI/CD, testing pipelines, and peer reviews, ensuring efficient collaboration and code quality.
- Developed web applications from inception to deployment using Node.js, React, and Vite, integrating GraphQL and REST APIs to deliver comprehensive solutions.
- Facilitated the creation of complete applications from scratch, leveraging expertise in JavaScript, TypeScript, React.js, Node.js, and other technologies to meet project requirements.
- Conducted thorough testing and debugging to ensure the reliability and functionality of applications, implementing custom solutions and optimizations as necessary.
- Contributed to enhancing software functionality and optimizing development processes, staying abreast of industry trends and emerging technologies to improve project outcomes.
- Played a key role in improving website loading times and responsiveness by analyzing code, identifying performance bottlenecks, and implementing custom solutions and optimizations.
- Developed comprehensive documentation to ensure accessibility and maintainability of software applications, fostering effective communication and knowledge transfer among team members and stakeholders.

## Education

---

### Universidad Fidelitas

San Jose, Costa Rica

Bachelor of Engineering in Computer Science

1/2021 - 8/2023

Expected graduation date: Q3/2024

- Relevant coursework: Data structures and algorithms, Object-Oriented Programming, Database Systems, Computer networking, Software Engineering, Project Management, Systems Architecture, Business Intelligence, Calculus, Research and Communication, Agile Methodologies.

Projects:

- Collaborated with teams of 3-6 students to develop high-quality software deliverables, utilizing effective communication and collaboration to achieve project goals and meet deadlines.
- Conducted code reviews and provided constructive feedback to team members to improve code quality and maintainability.

### Academia de tecnologia UCR

San Jose, Costa Rica

CISCO Certified Network Associate Academy

2/2020 - 9/2020

- Developed practical skills in network configuration, troubleshooting, and maintenance, using Cisco IOS commands and various network protocols.
- Utilized CCNA knowledge and skills to support individual projects and personal development.

## Additional

---

**Technical Skills:** JavaScript, TypeScript, Redux, XState, Jest, Vite, HTML, CSS, React.js, Node.js, PLSQL, GIT, C#, .NET, GraphQL, Python, Java, PHP, Figma, ExpressJS, REST.

**Languages:** Proficient in English (C2), Native proficiency in Spanish.
